Profile

I am a FullStack Developer with huge love for PHP, JavaScript, SilverStripe, SvelteKit, and other headless technologies to create scalable and intuitive web applications. However, I am also open to working with other technologies and languages to meet the needs of each project. My passion for technology and ability to learn quickly enable me to adapt to new challenges and deliver solutions that meet the highest standards of quality. I have a proven track record of working collaboratively with cross-functional teams and clients to achieve project objectives.
